

Split Yellow Bus — School Locations & Route Map

Spatial Description and Mapping Guide

1. Overview: Split’s Urban Geography

Split is a coastal city on the Adriatic, oriented along a north-south axis with the sea to the south and the Mosor mountain range to the north. The historic centre (Diocletian’s Palace and adjacent neighbourhoods) sits on a small peninsula. The city expands eastward and northward into newer residential quarters built primarily from the 1960s onward.

Key geographic fact for the Yellow Bus: The distance from the easternmost schools (Mejaši, Ravne Njive) to the central/western schools (Dobri, Meje) is approximately **5–8 km as the crow flies**, and **12–18 minutes by road** in off-peak morning traffic.

2. School Locations — Coordinates and Addresses

OVERCROWDED SCHOOLS (Eastern Split)

School	Address	Approx. Coordinates	Neighbourhood
OŠ Mejaši	Mejaška ul., Split	43.5180° N, 16.4950° E	Mejaši
OŠ Ravne Njive – Neslanovac	Sarajevska ul. 30, Split	43.5280° N, 16.4780° E	Ravne Njive / Neslanovac
OŠ Sućidar	Sućidarska ul., Split	43.5220° N, 16.4680° E	Sućidar
OŠ Mertojak	Mertojak area, Split	43.5100° N, 16.4820° E	Mertojak

UNDER-ENROLLED SCHOOLS (Central/Western Split)

School	Address	Approx. Coordinates	Neighbourhood
OŠ Dobri	Kliška 25, Split	43.5080° N, 16.4410° E	Dobri (historic centre)
OŠ Meje	Šetalište Petra Preradovića, Split	43.5020° N, 16.4200° E	Meje (near Marjan)
OŠ Lučac	Omiška 27, Split	43.5060° N, 16.4490° E	Lučac
OŠ Plokite	Slavonska 13, Split	43.5210° N, 16.4490° E	Plokite / Sućidar border

3. Proposed Yellow Bus Routes

Route A — Primary (Phase 1)

Mejaši → OŠ Dobri

Pick-up point: Near OŠ Mejaši / Mejaška ulica (eastern Split)

↓

Head west along Branimirova obala / Ulica Domovinskog rata

↓

Cross the eastern approach to the city centre

↓

Drop-off: OŠ Dobri, Kliška 25 (Dobri neighbourhood, city centre)

Distance: ~7 km

Travel time: 12–16 minutes (morning, off-peak)

Return: 13:00 departure, reverse route

Intermediate stop option: OŠ Lučac (Omiška 27) is on the same westward corridor — Route A can serve both Dobri and Lučac with a 3-minute detour.

Route B — Phase 2

Ravne Njive → OŠ Meje

Pick-up point: Near OŠ Ravne Njive, Sarajevska ul. (north-eastern Split)

↓

Head south-west via Ulica Slobode / Domovinskog rata

↓

Continue west through Zvončac toward Marjan peninsula

↓

Drop-off: OŠ Meje, Šetalište Petra Preradovića (Meje, western Split)

Distance: ~8 km

Travel time: 15–20 minutes (morning, off-peak)

Return: 13:00 departure, reverse route

4. Map Layers — Instructions for GIS / Google Maps Build

To create a presentation-quality map, the following layers should be created in **Google My Maps**, **uMap**, or a GIS tool:

Layer 1: School Markers

Marker type	Schools	Colour
Large red circle	Mejaši, Ravne Njive (3-shift, critical)	Red
Medium orange circle	Sučidar, Mertojak (2-shift, strained)	Orange
Large green circle	Dobri, Meje, Lučac (under-enrolled)	Green
Medium blue circle	Plokite (1-shift, moderate)	Blue

Each marker should show: - School name - Enrollment number - Number of shifts - Short status label (“Critical — 3 shifts” / “Available capacity”)

Layer 2: Yellow Bus Routes

Route	Colour	Style
Route A: Mejaši → Dobri/Lučac	Yellow (#FFD700)	Thick solid line with direction arrows
Route B: Ravne Njive → Meje	Yellow (#FFD700)	Thick dashed line with direction arrows

Layer 3: Neighbourhood Boundaries (optional)

Shade eastern quarters (Mejaši, Ravne Njive, Neslanovac, Sučidar) in a light red/orange wash to show the “overcrowding zone.”

Shade central/western quarters (Dobri, Lučac, Meje, Plokite) in a light green wash to show the “available capacity zone.”

Layer 4: Reference Points

- Diocletian’s Palace (centre landmark)
- Split bus station (Autobusni kolodvor) — useful reference
- Marjan hill (western landmark)
- Distance scale bar (set to 2 km)

5. Quick Google My Maps Build Instructions

1. Go to **Google My Maps** (mymaps.google.com)
2. Create a new map titled “Split Yellow Bus — School Network”
3. Add 8 school markers using the addresses/coordinates above, colour-coded as described

4. Draw Route A as a line: click “Draw a line” → trace the road from Mejaška ul. to Kliška 25
5. Draw Route B as a dashed line: Sarajevska ul. 30 to Šetalište Petra Preradovića
6. Add labels and notes to each school marker (enrollment, shifts)
7. Share the map as a public link for embedding in presentations

Alternative (offline): Export the map as PNG from Google My Maps for insertion into PowerPoint.

6. Descriptive Map Text (for documents without images)

For inclusion in text-based documents or submissions:

Split’s elementary school network reflects the city’s uneven demographic growth. The four most overcrowded schools — OŠ Mejaši, OŠ Ravne Njive, OŠ Sućidar, and OŠ Mertojak — are all concentrated in the eastern and north-eastern quarters of the city, areas that grew rapidly from the 1970s onward and continue to attract young families. These schools sit within a 2 km radius of each other, in neighbourhoods bounded by the Domovinskog rata corridor to the south and the Mosor foothills to the north.

In contrast, the under-enrolled schools — OŠ Dobri, OŠ Meje, OŠ Lučac, and OŠ Plokite — are concentrated in the historic city centre and western Split, within 1.5 km of the sea and the Marjan peninsula. These schools are accessible from eastern Split by a direct westward road corridor (Domovinskog rata / Branimirova obala) that connects the two zones without passing through any major traffic bottleneck.

The proposed Yellow Bus routes follow this natural east-west corridor. Route A (Mejaši → Dobri/Lučac, ~7 km) and Route B (Ravne Njive → Meje, ~8 km) each require 12–20 minutes of travel time and encounter no significant routing obstacles. The compactness of Split — a city of 167,000 inhabitants in a relatively small geographic footprint — makes a dedicated school bus service operationally straightforward.

7. Map for City Council Submission

For a formal city council submission, the recommended map format is:

- **A3 landscape**, printed or presented digitally
- **Base map:** OpenStreetMap or city cadastral map (available from Grad Split GIS portal)

- **Title:** “Predložene rute Žutog autobusa — osnove škole Splita” (Proposed Yellow Bus Routes — Split Elementary Schools)
- **Legend:** in Croatian, colour-coded per layer
- **North arrow and scale bar**
- **Source note:** “Podloga: OpenStreetMap contributors. Podaci: Grad Split, školski godišnji planovi 2024/25–2025/26.”

8. Distances Summary

Route	From	To	Distance	Drive time
Route A	OŠ Mejaši	OŠ Dobri	~7 km	~14 min
Route A (extended)	OŠ Mejaši	OŠ Lučac	~6.5 km	~12 min
Route B	OŠ Ravne Njive	OŠ Meje	~8 km	~17 min
Reference	OŠ Mejaši	OŠ Dobri (direct)	~5.5 km	— (straight line)

For context: the distance from OŠ Mejaši to OŠ Dobri is roughly the same as crossing Vienna’s 1st to 3rd district, or London’s Shoreditch to Barbican. These are not long journeys.
